

Xplore Career – User Guide

Developed by Akhil Infotech India Pvt. Ltd.

VERSION 1.0

Welcome to Xplore Career

Welcome to **Xplore Career**, an career development platform designed exclusively for IT students. Our platform helps you choose the right career path, develop industry-ready skills, improve productivity, and explore career opportunities through one personalized learning journey.

Getting Started

Step 1: Create Your Account

1. Click **Create Account**.
 2. Enter your Full Name, Email Address, Mobile Number, and Password.
 3. Verify your account (if required).
 4. Sign in using your registered credentials.
-

Step 2: Choose Your Career Path

After your first login, selecting a career path is mandatory.

Choose the IT career that matches your goal, such as:

- Full Stack Developer
- Frontend Developer
- Backend Developer
- UI/UX Designer
- Data Analyst
- AI Engineer
- DevOps Engineer

Your selected career path personalizes every module in the platform.

Platform Modules

1. Career Decision

Purpose

Select your preferred IT career path.
